### Parasite Exam, Blood

Test	Current Result and Flag	Previous Result and Date	Units	Reference Interval
Parasite Exam, Blood <sup>01</sup>	No Plasmodium, Babesia, or other blood parasites seen.			None Seen
Limitations <sup>01</sup>	One negative result does not rule out the possibility of a parasitic infestation. If protozoal, filarial, or trypanosomal infection is strongly suspected, test should be performed at least three times with samples obtained at different times in the fever cycle.			

#### Disclaimer

The Previous Result is listed for the most recent test performed by Labcorp in the past 5 years where there is sufficient patient demographic data to match the result to the patient. Results from certain tests are excluded from the Previous Result display.
