General Comments and Additional Information

Fasting: No **Total Vol:** **Source:**

Result Name	Flag	Result	Range/Units	Status	Lab
-------------	------	--------	-------------	--------	-----

096206 Varicella-Zoster V Ab, IgG

Varicella Zoster IgG	Reactive	Non Reactive	Final	01
----------------------	----------	--------------	-------	----

****Please note reference interval change****

Non Reactive: VZV IgG was not detected suggesting that immunity has not been acquired. A non reactive result does not exclude the possibility of acute VZV infection. If recent exposure to VZV is suspected, another sample should be collected and tested.

Reactive: VZV IgG was detected indicating previous infection and/or vaccination. VZV IgG cannot be used to determine the stage and/or timing of infection.

Performing Lab

01 - Labcorp Phoenix, 5005 S 40th Street Ste 1200, Phoenix, AZ 85040-2969, (800) 788-9743, Collum, Earle MD
